

DO YOU KNOW?

All adults at GGS are trained to ensure you are safe and protected from harm.

If you feel you are unsafe or suffering silently you can talk to **any adult** in the school.

If you are worried about something that is happening at home, at school or on the internet make sure you talk to **an adult**.

We have a number of adults who are well trained and experienced in dealing with highly vulnerable young people who have suffered serious emotional, physical and sexual trauma.
